

## Architecture as a performing art /

Feuerstein, Marcia F. Read, Gray

Routledge, 2016

Monografía

This collection of essays reveals a deep alliance between architecture and the performing arts, uncovering its roots in ancient stories, and tracing a continuous tradition of thought that emerges in contemporary practice. With fresh insight, the authors ask how buildings perform with people as partners, rather than how they look as formal compositions. It advances architectural theory, history, and criticism by proposing the lens of performance as a way to engage the multiple roles that buildings can play, without reducing them to functional categories
