

The United Kingdom's Classrooms of the Future [

Bissell, Chris

OECD Publishing,
2001

Analítica

Last year the UK Department for Education and Employment (DfEE) developed proposals for an initiative in school building design that became known as Classrooms of the Future. Its objective is to develop a number of pilot projects which explore different design options for the delivery of education in the 21st century. The lessons learned from the projects will help shape guidance for the future design of schools
