

## A New Creative Learning Centre at a Girls School in Australia [

Bell, Amanda

OECD Publishing,  
2007

Analítica

Brisbane Girls Grammar School's new Creative Learning Centre was conceived to group arts studies which were previously scattered across the campus and to serve all students as a meeting place and technology hub. The building is specifically designed to provide the most flexible and innovative environment for teenaged girls, having special regard for the way girls learn and interact socially. The unique design also helps ensure protection from Brisbane's hot and humid environment
