

Algebraic topology -homotopy and homology /

Switzer, Robert M. (1940-), author

Electronic books

Monografía

From the reviews: "The author has attempted an ambitious and most commendable project. He assumes only a modest knowledge of algebraic topology on the part of the reader to start with, and he leads the reader systematically to the point at which he can begin to tackle problems in the current areas of research centered around generalized homology theories and their applications. ... The author has sought to make his treatment complete and he has succeeded. The book contains much material that has not previously appeared in this format. The writing is clean and clear and the exposition is well motivated. ... This book is, all in all, a very admirable work and a valuable addition to the literature... (S.Y. Husseini in Mathematical Reviews, 1976)

Título: Algebraic topology -- homotopy and homology Robert M. Switzer

Editorial: Berlin Springer 2002

Descripción física: 1 online resource (xii, 526 pages) illustrations

Mención de serie: Classics in mathematics 1431-0821

Nota general: "Reprint of the 1975 edition." "Originally published as vol. 212 of the Grundlehren der mathematischen Wissenschaften"--Title page verso

Bibliografía: Includes bibliographical references and index

Contenido: Some Facts from General Topology -- Ch. 1. Categories, Functors and Natural Transformations -- Ch. 2. Homotopy Sets and Groups -- Ch. 3. Properties of the Homotopy Groups -- Ch. 4. Fibrations -- Ch. 5. CW-Complexes -- Ch. 6. Homotopy Properties of CW-Complexes -- Ch. 7. Homology and Cohomology Theories -- Ch. 8. Spectra -- Ch. 9. Representation Theorems -- Ch. 10. Ordinary Homology Theory -- Ch. 11. Vector Bundles and K-Theory -- Ch. 12. Manifolds and Bordism -- Ch. 13. Products -- Ch. 14. Orientation and Duality -- Ch. 15. Spectral Sequences -- Ch. 16. Characteristic Classes -- Ch. 17. Cohomology Operations and Homology Cooperations -- Ch. 18. The Steenrod Algebra and its Dual -- Ch. 19. The Adams Spectral Sequence and the e-Invariant -- Ch. 20. Calculation of the Cobordism Groups
