text (article)

Analítica

New localities for two interesting species for the valencian flora are here reported: *Genista umbellata* (Desf.) Poir., a very rare species in the autonomic rank, included in the Valencian Flora Red List, and *Phelipanche reuteriana* (Rchb. f.) Carlón, Gómez Casares, Laínz, Moreno Moral, Sánchez Pedraja & Schneeweiss, a rare species in the autonomic rank. *G. umbellata* is also a noveltie for the province of Valencia, and some ecological comments are presented about *P. reuteriana*
