

Heroicus /

Filóstrato, Flavio
the Athenian (
active 2nd century-3rd century),
author

Dialogues, Greek-

Electronic books

Monografía

Philostratus's writings embody the height of the renaissance of Greek literature in the second century CE. Heroicus is a vineyard conversation about the beauty, continuing powers, and worship of the Homeric heroes. Gymnasticus is the sole surviving ancient treatise on sports, which reshapes conventional ideas about the athletic body.
