

Experiencias del tratamiento metodológico interdisciplinar al tema Historia Psicosocial en la Facultad de Ciencias Médicas Guantánamo [

2018

text (article)

Analítica

A pedagogical research, as result of the methodological work carried out by the educational staff of Discipline Medical Psychology II to perfect the methodological preparation of the educational staff in the treatment to the contained Psychosocial History was carried out. It took advantage of the system of basic contents of Medical Psychology II linked with the subject medical Propedeutics and clinical semiology. The main results find in the fault of correspondence between the model of Psychosocial History that gives in the subject Medical Psychology II with which receive the students in the subject Propedeutics, the out-of-date of the bibliography. The system of methodological classes developed gave answer to the methodological conceptual problem, updated the contents of the subject Psychosocial History, rebuilt the guide of the Practical Class and modified the dynamics of the class, with what attained the increase of the satisfaction of the professors and students
