Analítica

Republicanism in liberal Spain represents a social and political system that is openly antagonistic to the model proposed by post-revolutionary liberalism. While the liberal revolution adopted the form of a constitutional monarchy, a centralised, undemocratic and confessional state, republicanism proposes a radically different order: republicanism versus monarchy; democracy versus liberal, selective suffrage; decentralisation versus centralism; and religious freedom versus a confessional state. For this reason it is possible to talk about "the other Spain", since republican democracy, by virtue of its social foundations, sources of authority and political and social programme, provides a clear counterpoint to the liberal social and political order. However, this alternative model also involves different forms of decentralisation, secularism and social reform, and for this reason it is more appropriate to talk about republicanism rather than simply republicanism
