

Las TIC como herramienta de apoyo para personas con Trastorno del Espectro Autista (TEA) [

2016

text (article)

Analítica

People with Autism Spectrum Disorder (ASD) have Special Educational Needs (SEN) that have been worked only through traditional methodology until recently. At present, the evolution of information and communication technologies (ICT) make that everyday more resources tailored to people with ASD appear in order to improve any area of development and its core competencies. Thus in this paper we have compiled a series of programs that promote learning for people with ASD by ICT, making a classification of them according to their purpose
