

Los orientadores educativos: unificación de su práctica mediante un modelo de orientación adaptado al siglo XX [

2020

text (article)

Analítica

This article postulates the need to reach a consensus on an orientation model adapted to a dynamic, changing and complex society. For this, a review of the scientific literature has been carried out and a workshop has been held with counselors at the primary and secondary levels, reviewing the current state in the different autonomous communities. A proposal has been prepared that allows for the professional and social recognition of the counselor in order to disseminate it to the educational community
