Analítica

The Directive 2015/2302 of 25 November 2015, on package travel and linked travel arrangements, modified the legal regime of package travel and introduced the figure of linked travel arrangements. The object of this work is the linked travel services, proceeding to the analysis of the elements that configure and differentiate them from package travel, and the duties imposed on the trader who facilitates the contracting of travel services that eventually end up being linked. All this from the perspective of the aim pursued by the legislator: to increase the protection of those who contract tourist services, especially by electronic means
