

"Poniéndole el cascabel" al marco [

2022

text (article)

Analítica

The Occupational Therapy Practice Framework is one of the most prominent benchmarks for the practice of the discipline. It has proven its usefulness in conveying the basic principles and overview of the profession, as well as in justifying the defence of the scope of competence of occupational therapists. The General Council of Colleges has made an official request to the publishers for an official translation, without success. In any case, the final product is of high quality and fit for purpose
