Analítica

This Note addresses an outline and a critical approach of the Decision of the Supreme Court of the United States of America in *Sachs* case. After an introduction bringing to the fore in tune with the rulings made by the High Court in its recent and well-known jurisprudence, outstanding among which are *Kiobel* and *Daimler*, we present the precedents of the case and the main arguments put forward by the reporting Justice Roberts. Such arguments are debated afterwards in a long and detailed way, following overall assessments on the Decision. With respect to our conclusive comments we refer to the possibility of introducing into both the US jurisdictional system and sovereign immunity the foundations of the methodological approaches of the US modern doctrine as far as the choice of the applicable law is concerned, advocating for a greater awareness on the part of the Supreme Court with regard to the critical problem of access to justice
