Analítica

The Public University of Navarre and the Government de Navarre, have for the past four years been working together on a project to publish the financial documentary sources of the Middle Ages in Navarre. An enormous volume of information for the study of the Late Middle Ages is to be found in the "Archivo General de Navarra and especially in the section of the "Comptos (Accounts), which contains the archives of the former "Cámara de Comptos". Professor Carrasco and his research group have begun the edition of eight volumes of taxation documents, beginning with the second half of the 13th century. As a result of the publication of these documents, several research papers have been published and it has been possible to establish the different types of taxation documents that existed. This article also studies the different stages in the elaboration of these "libros de comptos". The publication of these documents will permit the study of the evolution of the taxation process and will give insight into how tax administration functioned
