

Administración pública y derechos humanos: el caso de los consumidores de los servicios públicos [

2016

text (article)

Analítica

This paper seeks, in a generic way, to elucidate the importance of the actions, as well as the obligations of the public administration, with regard to the Human Rights of the consumers of public services. The analysis is based on the accumulated obligations of the Mexican State derived from the legal framework in force in our country, particularly in the first constitutional provision, as the dissemination, respect for, and protection of Human Rights binds all the operators that are members of the public administration

This paper seeks, in a generic way, to elucidate the importance of the actions, as well as the obligations of the public administration, with regard to the Human Rights of the consumers of public services. The analysis is based on the accumulated obligations of the Mexican State derived from the legal framework in force in our country, particularly in the first constitutional provision, as the dissemination, respect for, and protection of Human Rights binds all the operators that are members of the public administration
