

Adquisición de Estrategias de Iniciación a la Investigación en Entornos Diversos [

2014

text (article)

Analítica

As part of the training of future professional orientation it has been brought about to the students the participation in a teaching space where they can acquire strategies to the beginning investigation in diverse environments. In this study it is gathered the detailed analysis of the basic strategies of investigation that these students have reached along six years, as well as the reflection and the conceptual change that the students have experimented with regard to the attention to the diversity and the diverse environments
