Analítica

This poetical proposal can be summarized in three aphorisms: 1) the process is the end; 2) the poem is a learning for mistake, so it is necessary to show these mistakes (rewritings, sketches, comments, variants...); And 3) creating is to interpret and vice versa. These guidelines present the poetry as incessant transformation to extract preceding, current and afterward times of the poem, as well as the identities that it carry inside. That perspective wants to reflect the whole range of transtextuality, hypertextuality, paratextuality, etc., and hereby to expose the escapes of the poetical text (also, those of the identity of the author and of his otherness), as a plural and protean version
