Analítica

This oral presentation we want to show you an analysis about the popular piety from the perspective that the historical analysis gives us through the artistic manifestations. Even so, we will stop specially in the Canarian reality from the Baroque on. It's known that the main motivation of these popular expressions are: to express the spiritual experience of Christ in his Church and they will live on time and any field of the Christian reality as a living community. Finally, this methodological analysis brings us face to face from the historical point of view to the theological explanation
