

Alternancia, un cambio de timón que no debiera hacer encallar el barco [

2019

[text \(article\)](#)

Analítica

The alternation in power enriches us as a society. It gives us the certainty that there are different points of view, different visions of the future and of how things are done or how things should be done in public. It teaches us that no one has the absolute truth and that power is not the property of any particular group, of any party, or of any business group, union or family. It reminds us that in politics neither triumphs nor defeats will last forever. There will always be the possibility of returning, with renewed ideas and with greater impetus. This article deals with the democratic alternation advantages and disadvantages, from a perspective of the Mexican elections
