

Aportaciones de la arqueología al conocimiento sobre la historia militar romana [

Centro de Estudios de Historia Militar,
2012

text (article)

Analítica

This paper presents a brief overview of Roman military archeology, placing a particular emphasis on recent scientific contributions in this field. Similarly, I discuss which have been the main theoretical approaches to this discipline and how they have influenced the preference for a specific field of study. Finally, I want to take an opposing stance on the excessive compartmentalization of knowledge under multiple labels and defend multidisciplinary works that take into account the use of any kind of source
