Analítica

Equity arises in the Middle Ages as a key concept as an intend to achieve judicial and law unity. Equity appeared in a social context where the canon law influenced the whole the human code. The aforementioned concept, outstanding for its versatility, would start to be polished by analogical meanings, and it will also permeate the "secular" law. Furthermore, equity has the justified pretention of ordering society as a whole. In that way, aequitas will be the inspiring beginning of the social order as it will keep peace and concord
