text (article)

Analítica

The subject of inequality economic has been a problem that in last times it has show as a phenomenon that significantly affect wide socials groups in different place of world. This problem has called attention of the economist, of particular manner, it has studied with theory rigor, but in reality it has not designed efficient process in its reduction. Different theories approach have build an explication, nevertheless, in they has excluded some dynamics that seem she has high capacity for to explicit it phenomenon. In this document, do a survey underlying theories about the subject, embodying in the analysis the knowledge as driving mechanism of the inequalities in the modern economies. This conclude that the knowledge, which be a recourse that allow a use capitalist and is available for spend, constitute an element that hold and deep the inequality conditions between countries or economic regions
