

## Certified associate in project management (CAPM) exam official video course

Warburton, Roger,  
presenter

Material Projectable

**23+ Hours of Video Instruction** This official PMI video course is your complete guide to self-study for passing the 2023 Certified Associate in Project Management (CAPM) exam. **Overview:** The Certified Associate in Project Management (CAPM) exam has become one of the leading certifications in the field of project management. CAPM is globally recognized as providing candidates with a solid foundation in hands-on project management skills and knowledge. The CAPM exam covers a broad range of project management concepts and prepares candidates in the skills, tools, and techniques they are likely to encounter if they are assigned to a project. The CAPM is offered by the Project Management Institute (PMI), a leading worldwide organization in PM, and is a stepping-stone to the Project Management Professional (PMP) certification. As you prepare for the exam, you will learn all the fundamental Project Management concepts necessary to also allow you to apply project management principles in your career. The videos in this course cover the information from the Guide to the Project Management Body of Knowledge (PMBOK Guide) seventh edition, as well as other resources, to provide all you need to know to pass the CAPM exam. This course also gives you access to learning tools such as flash cards, quizzes, and practice tests that help you understand the material you must know to answer the 150 questions you will see on the official exam. **Benefits of becoming CAPM Certified include:** Become familiar with best project management practices Establish the credibility as knowledgeable in project management Obtain better job prospects and opportunities **About the Instructor** Roger Warburton taught Project Management (PM) at Boston University's Metropolitan College for over a decade. Roger has taught both undergraduate and graduate students in the classroom as well as online. He designed and taught the primary graduate PM course, which was required for all Masters' Degree Students. MET College students were mid-career professionals pursuing career advancement or seeking a change to a project management career. Roger's course was one of MET College's highest rated by students. The online version won an award for its innovative content. Roger also designed and taught both classroom and online versions of the graduate Project Management Costs and Risks course. **Learn How To: Pass the CAPM by applying your understanding of project management in four distinct areas:** Project Management Fundamentals and Core Concepts Predictive - Traditional, Plan-Based Methodologies **Who Should Take This Course:** This course is designed as a self-study tool to help entry-level project managers and career changers new to the field, learn the skills necessary to pass the Certified Associate in Project Management (CAPM) exam. The CAPM can be the first stepping-stone to a career in Project Management (PM). Before taking the CAPM exam, the Project Management Institute requires you have both: A secondary degree (high school diploma), an associate degree, or the global equivalent 23 hours of project management education completed by the time you take the exam The videos and practice materials in this course fulfill the 23 hours of project management education requirement. **Course Requirements:** There are no pre-requisites for using this course. However, it is recommended that you access

PMI's "A Guide to the Project Management Body of Knowledge" (PMBOK Guide) seventh edition and the "CAPM Handbook." Both are available on the pmi.org website
