

The complete cybersecurity bootcamp /

Santos, Omar, presenter

Material Proyectable

The Complete Cybersecurity Bootcamp, 2nd Edition is your comprehensive guide to becoming a cybersecurity professional. The extensive course is compiled from Omar Santo's best-selling video courses, starting with the basics and leading you through the most important topics in the cybersecurity landscape. The videos in this intensive bootcamp are structured to help you start with the fundamental concepts of cybersecurity and then build your core cybersecurity knowledge and move on to real-life pen testing and ethical hacking projects. It also covers cloud security, cybersecurity management, monitoring and analysis, network security telemetry, digital forensics and incident response (DFIR), ethical hacking and pen testing, wireless hacking and pen testing, mobile device security, and IoT security. This course can also be a resource for anyone who is preparing for security certification like CompTIA Security+, Cisco CyberOps Associate, CISSP, CompTIA PenTest+, Certified Ethical Hacker (CEH), GIAC certifications, or others
