

Activismo pragmático: animalismo y políticas públicas

[

2019

text (article)

Analítica

The present article presents a case of incidence in public policies, where an animalist collective (Animal Identity, in Manizales - Colombia), mixing micro and macropolitical strategies and arranging a pragmatic animalism (integrating welfare and abolitionists tactics), proposes specific solutions to problems of abuse and animal cruelty. Semi-structured interviews were conducted to members of the collective and documentary reviews about animal legislation and knowledge production both academics and animalist collectives. It is concluded that when social collectives appeal to pragmatism privileging results on lucid narratives and militant placements, they get to develop a political reading of the context that makes them have a greater impact on acts of injustice that want to transform
