Analítica

his paper analyzes Jesuit pedagogy in Spain after the Second Vatican Council, encompassing recent trends and shifts by first delving into the main elements involved in the postconciliar crisis and renewal of the Society of Jesus in Spain, including the various critiques that this change received (part II). Second, this paper sheds light on the current Jesuit Ledesma-Kolvenbach University Paradigm, including its practical application and evaluation at the University of Deusto in Bilbao (part III). Third, this paper takes a brief look at the current reconsideration of active Jesuit pedagogy in Spain (and in Catalonia in particular), bearing in mind the contextualized convergences of educational philosophy (part IV). The concluding remarks address basic results from the analysis of these three elements
