An explosive fusion of gymnastics and modern dance, *Aeros* is a unique entertainment that has an enormously wide appeal. The creative talents of leading choreographers Daniel Ezralow, David Parson and Moses Pendleton and the originators of the percussion/theatre sensation *Stomp* are combined with scenic, costume, kinetic and lighting design by Broadway specialists to give a new context to the physical power and sinuous grace of world-class Romanian gymnasts. The result is a show that is breathtaking in its beauty, excitement and imagination
