

Andros y gyne: Lo inevitable del nuevo milenio [

Universidad CES. Facultad de Psicología,
2008

text (article)

Analítica

Androgyny is increasingly evident, especially in today's youth. The extremely marked differences in the past between the two sexes tend to disappear, giving rise to what unisex, identification of roles and the establishment of parameters to generate a new conception of man and woman in the world and to their existence . Being androgynous has advantages and disadvantages, but many more are surely the first to second. Androgyny appears in the early sixties as an exciting and innovative idea for the human sciences. Their study is limited in the scientific and academic communities of the time. At the end of the twentieth century and the beginning of the new millennium that the sexist movement, groups of artists and the gender studies will be strengthened by giving birth to a movement that involves directly to the people of the world in a trend that has turned into feature critical of the new millennium
