

A cerâmica como elemento caracterizador da ocupação Alto Medieval na Quinta de Crestelos (Meirinhos-Mogadouro) [

Glyphos Publicaciones,
2018

text (article)

Analítica

In this study, in the light of the structures and of ceramics, it was characterize the human occupation at Crestelos farm in high middle age. Were identified two distinct periods: one that includes the V-VI centuries and other centuries VII-VIII. e ceramics and the identified structures corroborate this segmentation, which does not involve cutting or occupational hiatus. e structures registered, indicate a local occupation whit housing level want from activities linked to agriculture. To complete this occupation are exhumed materials of which we highlight the ceramics, because the quantity, the quality and decorative types associated with this chronological period
