

Acondicionamiento de equipo para prueba erichsen de embutido. [

Universidad Tecnológica de Pereira,
2007

text (article)

Analítica

This document describes the process carried out to adapt a deep-drawing equipment WPM-TZP so that it can execute the Erichsen test following the ASTM E643 as standard. The methodology is focused on the electrohydraulic system adaptation and also on the test tooling design, starting from the equipment identification and recovery. Finally, the appropriate operating and the measuring system confidence are validated
