Analítica

This article refers to a research about the infantile broadcast programming in mexican free-to-air television. Through quantitative and qualitative research it presents a content analysis based on mexican tv broadcast programming in the week from the sixth to the twelfth of september 2010. So then, this empirical studio, which includes the media monitoring and the content analysis, evaluates the infantile broadcast programming in the mexican free-to-air channels: 2, 4, 5, 7, 9, 11, 13, 22, 28 and 40. The purpose of this article is to examine the violence, values and quality variables that those programs may show, in order to present the results of the analysis with suggestions and new proposals that improve the infantile broadcast programming.
