

Apertura económica y cultivos en el departamento del Meta-Colombia, 1990-2000 [

2018

text (article)

Analítica

The process known in Colombia as "Economic Opening" generated important consequences on production organization and social relationships on Metas Department. This paper seeks to analyze the economic backgrounds of the developments plans along the decade and how this influenced on the farmers decisions and as consequence in their intent to cultivate the land. To do that it was made a crops series reconstruction form the main products, this based in department data, also it analyzed national and Metas development plans to establish the farming policy emphasis in the openness context. The research showed damage to semester-long as much as to peasantry crops; and a benefit to business crops which required high capital investment
