

Bandoleros o resistentes? La guerrilla morisca en el reino de Granada a comienzos del siglo XVI [

2016

text (article)

Analítica

The title of this piece raises a question and suggests responses. This present study leans towards the latter of the two. The credit for this terminological precision must go to authors from the distant past. However, this has not prevented words like resistance and resistors from giving way to others related to banditry or to be more precise monfíes, which after 1526 replaced gazíes. After recalling the principal contributions or suggestions that have been made to the topic of so called "Moorish banditry", I will analyze the social profiles of the protagonists of the resistance and of their victims, the places where they practiced it and how it was suppressed
