Monografía

"This book charts the evolution of EU law (both internal market and institutional law) through the jurisprudence of one of its jurists. Few have as close an eye-witness view of the evolution of European Union law as judges at the ECJ. They not only observe, however, but actively work towards its development. This collection assesses the contribution to European Union law made by José Luís da Cruz Vilaça. Taking those areas of law which were directly shaped by his judgments (institutional law, internal market, free movement of persons, and judicial review), scholars assess his legacy. Through this prism, the story of EU law can be charted" -- [
