

Carbonates in continental settings : facies, environments, and processes /

Alonso-Zarza, Ana María (1962-)

Tanner, Lawrence H.

Elsevier Science,
2010

Monografía

This book provides an up-to-date compilation of the latest research on the petrography, facies, paleoenvironmental significance and economic aspects of continental carbonates. The overall organization of the book first emphasizes the descriptive aspects and processes operating on carbonate deposits in greatly varied settings, and then considers applications for basin analysis, as well as economic and historical aspects. This volume will be a valuable tool for graduate and postgraduate students as well as for experienced researchers

Título: Carbonates in continental settings facies, environments, and processes editors, A.M. Alonso-Zarza, Lawrence H. Tanner

Editorial: Amsterdam London Elsevier Science 2010

Descripción física: 1 online resource

Mención de serie: Developments in sedimentology 61

Bibliografía: Includes bibliographical references and index

Contenido: Lacustrine carbonates / (E.H. Gierlowski-Kordesch) -- Palustrine carbonates / (A.M. Alonso-Zarza, and V.P. Wright) -- Fluvial and associated carbonate deposits / (C. Arenas-Abad, M. Vazquez-Urbez, G. Pardo-Tirapu, and C. Sancho-Marcen) -- Calcareous spring deposits in continental settings / (B. Jones, and R.W. Renaut) -- Calcretes / (A.M. Alonso-Zarza, and V.P. Wright) -- Karst / (S. Frisia, and A. Borsato) -- Invertebrate and vertebrate trace fossils from continental carbonates / (J.F. Genise, R.N. Melchor, E.S. Bellosi, and M. Verde)
