Analítica

It is not an aim of this work the isolated report of two connected texts (El principio monárquico, Herrero de Miñón, 1972; Constitución Española, 1978). It is not either to produce a philological analysis of them, even it is indispensable. The texts are actually an essential pretext for every appropriate philosophical exercise. The paper performs a political critic, constructed in a republican perspective according to the concerns of the present vindicating some evaded rights
