

Communication in the workplace. Episode 3, conflict management /

Video Education Australasia, 2007

Instructional films.

Material Proyectable

Set in the production office of fictional current affairs program Sighted, this program provides a dramatic perspective on the place of conflict in workplace communications and explores strategies for dealing with everyday conflict situations. The program deals with the more ordinary communications that go wrong, the personal and workplace costs of these and the possibilities of avoiding such situations and/or dealing constructively with them when they occur. The program offers insights into the following key elements of conflict and conflict management and summarises them in the following text screens: What is conflict Role of conflict in the workplace Conflict spiral Conflict management strategies Constructive conflict management
