"Of all the tribes of Israel, why is Benjamin cast in the role of the villainous "other" in Judges 19-21? Krisel argues that the anti-Benjamin Tendenz in the narrative reflects economic, political and ideological tensions between the Golah community, the deportees who returned from Babylon during the early Persian period, and the people who had not gone into exile, who lived primarily in the Benjamin region. The hypothesis is supported by archaeological and survey data largely overlooked by biblical scholars and by a careful redaction history of the text. Krisel engages critically with the predominant scholarly view that Judges 19-21 uses "irony" to cast the explicit heroes in the narrative, the sons of Israel, as the implicit villains"--
