

## Actividades para el fortalecimiento del lenguaje en niños y niñas de 2 a 3 años [

2023

text (article)

Analítica

Language is a fundamental tool for communication and cognitive development of children. During the first years of life, little ones acquire language skills that allow them to express themselves, understand and establish social relationships. For this reason, it is important to stimulate their linguistic development with activities appropriate to their age. Between the ages of 2 and 3, boys and girls are at a stage in which their ability to speak and understand language is constantly evolving. To help them strengthen their language, it is important to offer them activities that allow them to practice their vocabulary, improve their pronunciation and comprehension, and develop their ability to communicate. Some activities that can be useful for strengthening language in children from 2 to 3 years old are: Reading stories and books with them, naming the objects and characters that appear in them, singing nursery rhymes and rhymes, emphasizing pronunciation and intonation, converse with them and ask them questions so that they develop their comprehension and oral expression skills, play with blocks and other toys that allow them to build and name objects, and use imitation and dramatization games so that children can practice situations daily activities and learn new vocabulary
