

Hillman y la Alquimia

[

2018

text (article)

Analítica

In this paper we will describe in the first place James Hillman's work, from his first publications to the consolidation of the Archetypal Psychology in the seventies, paying special attention to the post-Jungian context and the central ideas of the archetypal thought. In relation to the alchemy, we will locate the origin of its practice and analyse the development of the spiritual aspects of it from the last centuries until the irruption of the Analytical Psychology and the particular approach of Hillman through some of his articles
