

"Los ángeles y el poder celestial: el racionalismo de Maimónides versus el misticismo y la duplicidad del trono [

2017

text (article)

Analítica

Figure of angels is present in Jewish biblical tradition and in Jewish intertestamental literature. Even though researchers speculate on the lack of a "Jewish angelology", the angel figure plays a leading role in the administration of Heaven and Earth. From the characterization of the figure of the angels in Maimonides, this paper seeks to understand why he attempts to rationalize the angelology and the political-theological implications of that. Specifically, we are going to analyze the role of angels in the universe administration and in the relation with men, as well as in its dispute with the heavenly power
