Título: Nasopharyngeal cancer multidisciplinary management volume editors, J.J. Lu, J.S. Cooper, A.W.M. Lee ; with contributions by R.R. Allison ; foreword by L.W. Brady [and others]

Editorial: Heidelberg Springer 2010

Descripción física: 1 online resource (x, 334 pages) illustrations

Mención de serie: Medical radiology. Radiation oncology

Nota general: Title from title page of source document

Bibliografía: Includes bibliographical references and index

Contenido: The epidemiology of nasopharyngeal carcinoma -- Pathogenesis and etiology of nasopharyngeal carcinoma -- Molecular signaling pathways in nasopharyngeal cancer -- Natural history, presenting symptoms, and diagnosis of nasopharyngeal carcinoma -- Screening and early diagnosis of nasopharyngeal carcinoma -- Familial nasopharyngeal carcinoma -- Pathology of nasopharyngeal carcinoma -- Imaging in the diagnosis and staging of carcinoma of nasopharynx -- Prognostic factors in nasopharyngeal cancer -- Early stage nasopharyngeal cancer: a highly curative disease with radiation therapy -- Drug therapy for nasopharyngeal carcinoma: cytotoxic and targeted therapy -- The intergroup 0099 trial for nasopharyngeal cancer: history, perceptions, and transitions -- Concurrent chemotherapy-enhanced radiation: trials and conclusions -- Neoadjuvant chemotherapy: trials and conclusions -- Adjuvant chemotherapy for nasopharyngeal carcinoma -- Advances in the technology of radiation therapy for nasopharyngeal carcinoma -- Selection and delineation of target volumes in intensity-modulated

radiation therapy for nasopharyngeal cancer -- Post-treatment follow-up of patients with nasopharyngeal cancer -- Management of patients with failure following definitive radiation therapy: reirradiation in patients with locally recurrent nasopharyngeal carcinoma -- Surgery for recurrent nasopharyngeal carcinoma -- Systemic treatment for incurable recurrent and/or metastatic nasopharyngeal carcinoma -- Long-term complications in the treatment of nasopharyngeal carcinoma -- Nasopharyngeal cancer in pediatric and adolescent patients -- Staging of nasopharyngeal carcinoma
