Analítica

The paper presents some focuses with which have administered the human talent, from the first theories on the administration of the organizations until the reflections that should be made around the modern administrative theories. With these comparisons it is hoped to verify that the effectiveness with which people that work on the whole depend on the capacity of those who make the administrative function to get common objectives. Additionally, the technological advance and the development of the human growth, for if same, they don't explain if the quality of the administration in people's groups allows an effective application of those human resources
