

## 12th International Congress on Ericksonian Approaches to Psychotherapy. Transforming negative self-talk into a support ally /

Andreas, Steve,  
teacher,  
interviewer

Filmed interviews

Instructional films

Conference papers and proceedings

Material Projectable

We all talk to ourselves internally, sometimes resourcefully, sometimes critically, sometimes with our own voice, sometimes with the voices of others. Changing the unconscious nonverbal process elements of a voice is usually much more effective and emotionally impactful than changing the words. Educational Objectives: 1. Identify unconscious nonverbal elements of a voice to alter its impact. 2. Enlarge the context of a voice in space and time to clarify and deepen its meaning
