Analítica

since the arrival of the democratic period in spain, after almost four decades of dictatorship, in this country, citizenship in general has been postulated in the idea of pacifism. it is confused to be against all types of war, to be prepared to repel an external aggression such as a terrorist attack or to confront an armed that has taken place. With the start-up of a programme for the construction of a submarine or a combat aircraft, the debate arises in columns of newspapers, television sets, social networks or in any public space on the need or not to have to invest the money of the contributors in armament. However, the issue of defense of a country has an should be a matter of state, an idea that has not yet been assumed by our political leaders, which is why doubts are created about our defense model. the state has the responsibility to protect its citizens and its territorial integrity, therefore, they have to move the appropriate threads to activate a good model of defense to feel security
