

# Microsoft Intune Cookbook : Over 75 Recipes for Configuring, Managing, and Automating Your Identities, Apps, and Endpoint Devices /

Taylor, Andrew,  
author

Monografía

Get started with Microsoft Intune and explore its many facets, including task automation with Microsoft Graph Key Features Create and configure your new mobile device management (MDM) environment Become an Intune pro by mastering compliance policies, monitoring techniques, reporting practices, and application deployment procedures Learn how to manage Windows, Android, iOS, and macOS devices using Intune Purchase of the print or Kindle book includes a free PDF eBook Book Description Microsoft Intune is a cloud-managed mobile device management (MDM) tool that empowers you to manage your end-user device estate across various platforms. While it is an excellent platform, the initial setup and configuration can be a daunting process, and mistakes made early on can be more challenging to resolve later. This book addresses these issues by guiding you through the end-to-end configuration of an Intune environment, incorporating best practices and utilizing the latest functionalities. In addition to setting up your environment, you'll delve into the Microsoft Graph platform to understand the underlying mechanisms behind the web GUI. This knowledge will enable you to automate a significant portion of your daily tasks using PowerShell. By the end of this book, you'll have established an Intune environment that supports Windows, Apple iOS, Apple macOS, and Android devices. You'll possess the expertise to add new configurations, policies, and applications, tailoring an environment to your specific requirements. Additionally, you'll have the ability to troubleshoot any issues that may arise and package and deploy your company applications. Overall, this book is an excellent resource for anyone who wants to learn how to use Microsoft Intune to manage their organization's end-user devices. What you will learn Set up your Intune tenant and associated platform connections Create and deploy device policies to your organization's devices Find out how to package and deploy your applications Explore different ways to monitor and report on your environment Leverage PowerShell to automate your daily tasks Understand the underlying workings of the Microsoft Graph platform and how it interacts with Intune Who this book is for This book is for IT professionals, end-user device administrators, and system administrators looking to transition to cloud-managed devices or enhance their current environment

**Título:** Microsoft Intune Cookbook Over 75 Recipes for Configuring, Managing, and Automating Your Identities, Apps, and Endpoint Devices Andrew Taylor

**Edición:** 1st ed

**Editorial:** Birmingham, England Packt Publishing Ltd. [2023] 2023

**Descripción física:** 1 online resource (574 pages)

**Nota general:** Includes index

**Contenido:** Cover -- Title Page -- Copyright and Credits -- Contributors -- Table of Contents -- Preface -- Chapter 1: Getting Started with Microsoft Intune -- Technical requirements -- Chapter materials -- Creating a tenant -- Getting ready -- How to do it... -- Creating a user -- Getting ready -- How to do it... -- Automating it -- Assigning Entra ID roles -- How to do it... -- Automating it -- Configuring Entra ID Device settings -- How to do it... -- Automating it -- Configuring Entra ID ESR -- How to do it... -- Automating it -- Creating Entra ID static groups -- Getting ready -- How to do it... -- Automating it -- Creating Entra ID dynamic groups -- Getting ready -- How to do it... -- Creating a dynamic Office user group -- Creating a dynamic Autopilot device group -- Automating it -- Configuring Entra ID MDM/MAM scopes -- How to do it... -- Automating it -- Chapter 2: Configuring Your New Tenant for Windows Devices -- Technical requirements -- Chapter materials -- Configuring a Settings catalog policy -- How to do it... -- Automating it -- There's more... -- Configuring a custom policy -- Getting ready -- How to do it... -- Automating it -- Importing and ingesting an ADMX policy -- Getting ready -- How to do it... -- Automating it -- Group policy analytics -- Getting ready -- How to do it... -- Automating it -- Chapter 3: Securing Your Windows Devices with Security Policies -- Technical requirements -- Chapter materials -- Setting up a security baseline -- How to do it... -- Automating it -- There's more... -- Configuring an antivirus policy -- How to do it... -- Automating it -- Configuring Windows Security Experience -- How to do it... -- Automating it -- Configuring your BitLocker policy -- How to do it... -- Automating it -- Configuring Windows Firewall -- How to do it... -- Automating it -- Deploying ASR rules -- Getting ready -- How to do it... -- Automating it -- There's more... -- Enrolling in Defender for Endpoint -- Getting started -- How to do it... -- Deploying Windows LAPS -- Getting started -- How to do it... -- Automating it -- Configuring Application Control -- How to do it... -- Automating it -- Chapter 4: Setting Up Enrollment and Updates for Windows -- Technical requirements -- Building your update rings - including feature and quality updates -- Getting ready -- How to do it... -- Automating it -- There's more... -- Configuring driver updates -- How to do it... -- Automating it -- There's more... -- Enrolling and using Autopatch -- Getting ready -- How to do it... -- Automating it -- There's more... -- Configuring Windows Hello for Business -- How to do it... -- Automating it -- Setting up Windows Autopilot Enrollment Profiles -- How to do it... -- Automating it -- Configuring an ESP -- How to do it... -- Automating it -- There's more... -- Enrolling a Windows device -- Getting ready -- How to do it... -- There's more... -- Chapter 5: Android Device Management -- Chapter materials -- Technical requirements -- Setting up a managed Google Play account -- How to do it... -- Configuring enrollment profiles -- How to do it... -- Automating it -- Adding a Google Play application -- How to do it... -- Automating it -- Configuring a device restrictions policy -- How to do it... -- Automating it -- Configuring an OEM policy -- Getting ready -- How to do it... -- Automating it -- Configuring a Wi-Fi policy -- Getting ready -- How to do it... -- Automating it -- Adding an app protection policy -- How to do it... -- Automating it -- There's more... -- Enrolling an Android device - managed device -- Getting ready -- How to do it... -- Enrolling an Android device - BYOD -- Getting ready... -- How to do it... -- Chapter 6: iOS Device Management -- Chapter materials -- Important notes -- Technical requirements -- Configuring a connector between Apple and Intune -- Getting started -- How to do it... -- Configuring an Apple VPP token -- Getting started -- How to do it... -- Automating it -- Adding enrollment profile tokens -- How to do it... -- Automating it -- Configuring iOS policies using the settings catalog -- How to do it... -- Automating it -- Configuring iOS policies using device restrictions -- How to do it... -- Automating it -- Deploying applications via Apple VPP -- Getting started -- How to do it... -- Automating it -- Configuring iOS update settings -- How to do it... -- Automating it -- Configuring an app protection policy -- Getting started -- How to do it... -- Automating it -- There's more... -- Enrolling your device - corporate -- Getting started -- How to do it... -- There's more -- Enrolling your device - BYOD -- Getting started -- How to do it... -- Chapter 7: macOS Device Management -- Chapter materials -- Important notes -- Technical requirements -- Configuring a macOS Settings catalog policy -- How to do it... -- Automating it -- Deploying shell scripts to macOS -- Getting started -- How to do it... -- Automating it -- Configuring update policies for macOS -- How to do it... -- Automating it -- Deploying apps to macOS -- Getting started -- How to do it... -- Automating it --

Configuring a macOS enrollment profile -- Getting started -- How to do it... -- Automating it -- Enrolling your corporate device -- Getting started -- How to do it... -- Chapter 8: Setting Up Your Compliance Policies -- Technical requirements -- Chapter materials -- Actions for noncompliance -- Configuring notification templates -- How to do it... -- Automating it -- Deploying a Windows compliance policy -- Getting started -- How to do it... -- Automating it -- Deploying an Android compliance policy -- Getting started -- How to do it... -- Automating it -- Deploying an iOS compliance policy -- Getting started -- How to do it... -- Automating it -- Deploying a macOS compliance policy -- Getting started -- How to do it... -- Automating it -- Deploying a Linux compliance policy -- Getting started -- How to do it... -- Automating it -- Configuring and deploying a Windows custom compliance policy -- Getting started -- How to do it... -- Using conditional access to restrict access based on compliance -- Getting started -- How to do it... -- Automating it -- Chapter 9: Monitoring Your New Environment -- Technical requirements -- Monitoring applications -- Getting ready -- How to do it... -- Automating it -- Monitoring device configuration -- Getting ready -- How to do it... -- Automating it -- Monitoring device compliance -- Getting ready -- How to do it... -- Automating it -- Monitoring device enrollment -- Getting ready -- How to do it... -- Automating it -- Monitoring updates across platforms -- Getting ready -- How to do it... -- Automating it -- Monitoring device actions -- Getting ready -- How to do it... -- Automating it -- Reviewing audit logs -- Getting ready -- How to do it... -- Automating it -- Chapter 10: Looking at Reporting -- Technical requirements -- Checking device management reports -- Getting ready -- How to do it... -- Automating reports -- Reviewing endpoint security reports -- How to do it... -- Automating the reports -- Reviewing endpoint analytics reports -- Getting ready -- How to do it... -- Automating the reports -- Using Intune Data Warehouse with Power BI -- How to do it... -- Checking Windows updates via reporting -- Getting ready -- How to do it... -- Expanding Windows Update reporting -- Getting ready -- How to do it... -- Exporting diagnostics to Azure -- Getting ready -- How to do it... -- Chapter 11: Packaging Your Windows Applications -- Chapter materials -- Assigning applications -- Technical requirements -- Using the Microsoft Store integration -- How to do it... -- Automating it -- Packaging into MSIX -- Getting started -- How to do it... -- Packaging Win32 applications -- Getting started -- How to do it... -- Automating it -- Managing app supersedence and dependencies -- Application supersedence -- Dependencies -- Getting started -- How to do it... -- Deploying Office applications -- Getting started -- How to do it... -- Updating Office applications -- Getting started -- How to do it... -- Automating it -- Windows app protection -- Getting started -- How to do it... -- Automating it -- Chapter 12: PowerShell Scripting across Intune -- Technical requirements -- Deploying Platform scripts -- Getting started -- How to do it... -- Automating it -- Configuring Remediations -- Getting started -- How to do it... -- Automating it -- There's more... -- Using custom detection scripts in apps -- How to do it... -- Automating it -- Using custom requirements scripts in apps -- How to do it... -- Automating it -- Chapter 13: Tenant Administration -- Technical requirements -- Reviewing your connectors -- Getting ready -- How to do it... -- Automating it -- Adding filters -- How to do it... -- Automating it -- Configuring Intune roles -- How to do it... -- Automating it -- Using scope tags -- How to do it... -- Automating it -- Customizing the end user experience -- How to do it... -- Automating it -- There's more... -- Deploying organizational messages -- How to do it... -- Automating it -- There's more... -- Setting up terms and conditions -- How to do it... -- Automating it -- Configuring multi-admin approvals -- How to do it... -- Automating it -- Checking your tenant version -- How to do it... -- Using Intune's troubleshooting tools -- How to do it... -- Enrollment notifications -- How to do it... -- Automating it -- Configuring device restrictions -- How to do it... -- Configuring Quiet time policies -- How to do it... -- Automating it -- Chapter 14: Looking at Intune Suite Technical requirements
