

## (In)visible European government : critical approaches to transparency as an ideal and a practice /

Hillebrandt, Maarten, editor Leino-Sandberg, Päivi, editor Koivisto, Ida, editor

Monografía

"This book questions the theoretical premises and practical applications of transparency, showing both the promises and perils of transparency in a methodologically innovative way and in a cross-section of policy instruments. It scrutinizes transparency from three perspectives - methodologically, theoretically, and empirically - both in the specific context of the EU but also in the wider context of modern society in which transparency is embraced as an almost unquestionable virtue. This book examines the ways in which transparency practices can make institutions visible and stands out for its methodological self-reflection: to fully understand the irresistible call for transparency in our governing institutions, we must reflect on our own relationship with it. This book will be of key interest to scholars and students of transparency studies, democratic legitimacy, global governance, governance law, EU studies and law and public policy more widely"
