Título: 101 special practice problems in probability and statistics

Edición: 4th ed. Paul D. Berger ... [et al.].

Editorial: Lombard, IL Marsh Publications c2008

Descripción física: 1 online resource (xvi, 318 pages ill

Variantes del título: One hundred one special practice problems in probability and statistics One hundred and one special practice problems in probability and statistics

Nota general: Rev. ed. of: 101 special practice problems in probability and statistics / Paul D. Berger, Samuel C. Hanna, Robert E. Maurer. 3rd ed. 2005 Includes index

Contenido: Probability and Bayes' rule -- Counting techniques: combinations and permutations -- Decision analysis -- Probability distributions and statistical parameters -- Binomial distribution -- Poisson distribution -- Normal distribution -- Distribution of the sample mean and the central limit theorem -- Confidence intervals -- Hypothesis testing -- Simple linear regression and correlation -- Multiple and stepwise linear regression -- Chi-squared tests

ISBN: 9780971313071 pbk. : alk. paper)

Materia: Probabilities- Problems, exercises, etc Probabilités- Problèmes et exercices Probabilities.

Autores: Berger, Paul D. (1943-) Berger, Paul D. (1943-). 101 special practice problems in probability and statistics
