fiction.

Monografía

Tapped for a classified military program, Dr. Eileen McCormick has nothing left to lose. Bad enough her genetic experiments were used to turn innocent victims into zombies; worse still, a ruthless ex-colleague is threatening to expose her unless she joins his sinister research project. Now the only way she can set things right is to develop an antidote under the watchful blue eyes of Commander Matt Sykes. And the last thing Eileen needs is Matt's penetrating gaze, easy understanding, and compelling kiss uncovering all her deepest secrets ...
