

ASCP caseset : laboratory medicine /

Willis, Monte S.

Wians, Frank H.

American Society for Clinical Pathology Press,
2011

Problems and Exercises exercise books. Problems and exercises. Case studies. Problems and exercises. Problèmes et exercices.

Monografía

Provides case studies across the major subspecialties of clinical pathology: chemistry, urinalysis, transfusion medicine, microbiology, hematology, coagulation, and immunology. The case studies are intended to be used as part of a "case study-based" approach to teaching laboratory medicine
